

CHARACTERISTICS OF A CAREGIVER

A **caregiver** is someone who is/has been a primary caregiver to a parent, step-parent, in-law, spouse or adult child who needs/needed care due to a disability, a chronic disease or old age.

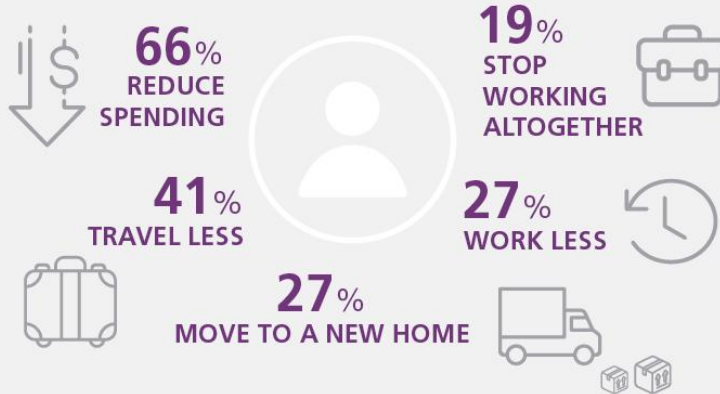

DEMOGRAPHICS

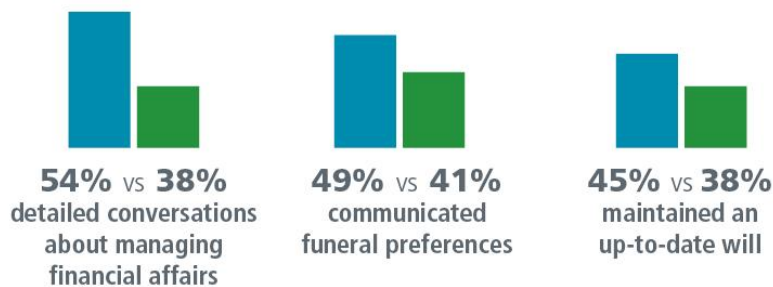

LIFESTYLE

Nearly all (92%) Boomers who expect to be future caregivers are willing to make lifestyle sacrifices in order to provide care.

PREPARATION

In general, **caregivers** are more prepared than **non-caregivers**.
